

## Local Matters.

Subscriptions for the JOURNAL, £1.  
ONE DOLLAR A YEAR.

Cruiser "Assail" here on Saturday.

There was a number of Baptist meetings in town last week.

The Baptist church has been repainted and looks handsomely in its new dress.

Capt. Stone, our general friend of Terminal City, was in town on Saturday and did not forget to give us a call. Call again, "Cap."

W. H. Barrington, the greater number of many enterprises, and an all-around smart, energetic man, paid us a visit from his home.

The juvenile cricket team of Port Hastings and Hawkesbury played a match game on the former's grounds on the 6th. The game was an exciting one and ended with a draw.

Mr. Jerry Williams and scored a complete victory over their opponents, the senior team, being Hawkesbury, 83; Hastings, 44. The Hastings lads promise to play a return match long.

Our readers will kindly pardon the omission of last week of the names of the winners of the juvenile cricket team, but that was due to the fact that the names of the former, which was being strangled on and on the press, by our "devil," fell from his mouth with a crash and the type set became a mass of "pl." "The devil"—not Old Nick—of whom students stand in awe, was the "devil" in question.

That the game was an exciting one and ended with a draw.

A steam yacht bearing the very euphonious name of "Say When," owned in Cleveland, Ohio, by wealthy gentleman named White, was in port last week.

New ads., and a lot of local and other matter next week.

## IT IS WHIPPING

That the new whipper, which perch on a stool is a perfect counterpart of Mr. Avance.

That some families and individuals, who are not so fortunate, are disgracefully indifferent in their cleanliness and overindulge in their chronic diseases.

That the old and wise saying puts a large on horseback and he will ride.

That things in a house have changed since time.

That the cause of the change is apparent.

That the boy had won the race because he could not get a girl to dance with him.

That "Frolics" cast side-long and gaudy glances in the fair and magnetic countenance of a tall damsel from A—.

That she paid heed to his entremising glances, but kept on dancing.

That times here are not as they were about five years ago.

That it is the custom of all with a full class, except with a colored case, because it is fearless in exposing shysters and humbugs of the meanest type.

That it fears no man being bolden to home, and moreover depended on any other person than the editor for its existence.

That if a certain class don't like our paper, let them go elsewhere, they do so, and that they are always at liberty to cease buying our paper—if their eyes are bad.

That the editor can sit without the support of pompos tools and jealous ignoramuses.

That the Hastings "clearance sale" must last to come down with the "blush."

That the follow is beneath our notice, and will be treated with contempt.

That it takes more than a single native of Antigonish or Cape Breton to make a good man.

That the author of the article is supposed to be by this person.

That old nut's portrait, revealing only the touch of the lawyer's pencil, is the best.

That habitual tipplers of the wine glass are more fond of strong drink than those who go on periodic picnics, the difference being that one is persistent in the habit, while the other indulges only occasionally.

That the red-headed kid mentioned in last issue resembles very much who is looked upon the Enterprise correspondent, burring side lights.

That both are gas-lugs, one being more fluent with the tongue than the other—but that is not his fault.

That he is indeed that it has often wondered at that it hadn't got up of repair long ago. Perhaps it is worked by electricity or run by steam.

Restored My Health  
and Strength. The majority of the one and two dollar bills I have received are from the following:—Frederick Martin Ferrier, 100 Broad St., Boston.

"For many years I was a sufferer from rheumatism, and was unable to work.

A little child of mine, who was troubled with the same complaint, was cured by Dr. J. C. Ayer, Lowell, Mass.
